*Fixed price. No fuel surcharge.							
**Delivery rates based upon the monthly average diesel fuel pricing from AAA State average of \$4.00/gal. For every \$0.10 that fuel exceeds the \$4.00/gal based price, there would be a 1% surcharge. As fuel is currently below \$4.00, there is no fuel surcharge applied.							
***A fuel surcharge for delivered materials will be added when diesel fuel exceeds \$4.00 per gallon, based on Midwest Region Padd 2 - Diesel on highway.
