

PROJECT ALERT

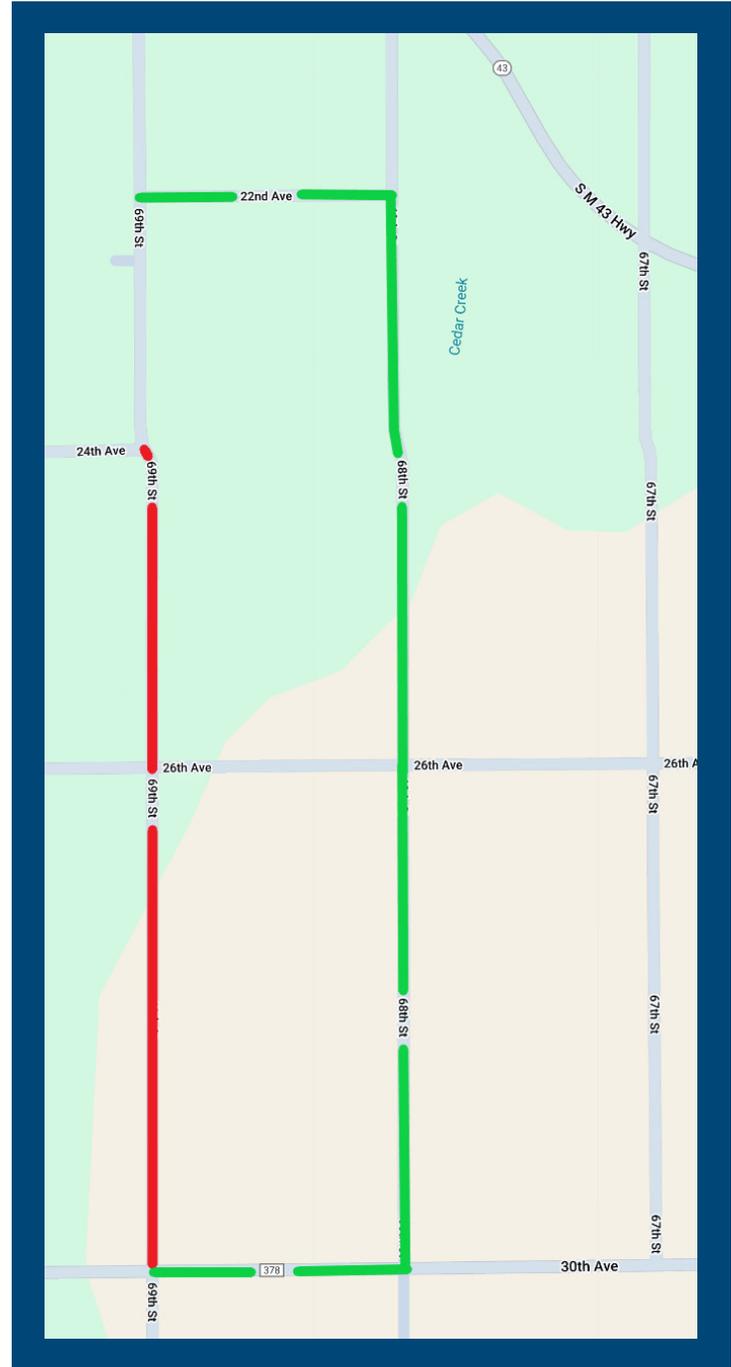

BEGINNING FEBRUARY 2025

The Van Buren County Road Commission will be trimming and removing trees along 69th Street between 24th Avenue and CR 378. Only trees between the staked road right-of-way line and the road will be affected.

Property owners who wish to keep the wood from these trees may do so by filling out and submitting a First Right of Refusal Disposal Agreement. This can be found on our website at vbcrc.org/rowmaintenance or can be attained by contacting our office.

The full project scope is preparing to pave, drainage improvements, and tree removals. The road will be closed to through traffic, the posted detour (pictured right) follows CR 378, 68th Street, and 22nd Avenue. Residents living within the project limits may experience minor delays entering and exiting their property.

This project is funded by Bangor Township and the prime contractor is Brad Thomas Excavating. Questions about this project may be directed to David Clift, Engineering Technician, at 269-674-8011 ext. 230.
