

VBCRC'S WEEKLY UPDATE

FOR THE WEEK OF FEBRUARY 10

OPERATIONS

- Staff will be evaluating roads throughout the County and mapping out areas that need boom mowing. These maps will be provided to Townships to assist in determining Township contributions towards boom mowing in 2025.
- Cold patching crews have been out daily – addressing reported potholes as well as those areas observed by staff while plowing snow.
- Stumps are scheduled to be ground and removed on Paw Paw Road as time and manpower allows.
- Crews are trimming trees along their plow routes and along guardrails across the county.
- Crews will plow and lay ice control materials as weather conditions require. Winter weather will impact us this week Wednesday and is expected to require plows through the rest of the week.

ENGINEERING

- Engineering technicians are preparing estimates for requested 2025 projects. Please submit your project requests for 2025 through the 2025 Road Planning Form or by emailing Alyssa.

FUN FACT: VBCRC TRUCKS AND EQUIPMENT USED 24,960 GALLONS OF DIESEL AT THE COST OF \$58,335.38 IN JANUARY ALONE!

NOTE: ALL operations are dependent on current weather conditions, equipment availability, and staffing and are subject to change. For detailed information regarding daily operations, please contact our office.
